

MEDEXX BEDO BIO

Insecticide 100% toxic-free Concentrate

**Innovation for a healthy
agriculture and environment
by German BIO-Chemical
Engineering**

Our philosophy: No pollution of human being, animal and environment

M E D E X X / B E D O BIO INSECTICIDE 100% TOXIC-FREE

Total biological and organic, as food and/or food additives

Active Ingredients: Coconut-Oil, Soybean-Oil

MEDEXX

Talking Points:

100% non toxic

Pure natural product, 100% biodegradable in ground

Effective for some weeks, therefore, economical use by long spray-intervals

Formation of resistance is impossible

Be effective quickly and reliable against:

**Ova – Larvae (Maggot) – Adult insects
Cotton Leafworm (*Spodoptera Littoralis*)
Spiny bollworm (*Earias Insulana Boiduval*)
Fritfly (*Oschinella Frit*)
Whitefly and all other flies
Corn borer (*Ostrina nubilalis*)
Orange spiny white fly
Citrus whitefly (*Dialeurodes Citri*)
Citrus blackfly (*Aleurocanthus Woglumi*)
Ash whitefly (*Siphonynus Phillyreae*)
Mosquitoes, like *Anopheles* / Tse-Tse-fly
And other well known pests.**

MEDEXX

Application fields:

Large areas: areas of farmland, meadows, Lakeland districts, swamp areas...
Small and medium-sized areas: gardens, ponds with larva, green-houses...

How MEDEXX/BEDO BIO is effective

Chitin becomes distraught (shells, wings)
The respiratory system clogs up, the insects choke
The insects dehydrogenize, dry up completely

How and with what is sprayed

In small to medium sized areas: with knapsack sprayers

In larger up to very large areas: with high pressure sprayers on pick-ups, tractors or motorized nebulizers

The use of BEDO-BIO is completely safe! Protective clothing, safety goggles, breathing protection or protective gloves are not necessary.
